

BOLT-IN SERIES

E-RATED/MEDIUM VOLTAGE FUSES

HIGHLIGHTS:

- E-Rated
- UL Listed
- Complies with ANSI C37.46

DEFINITIONS:

E-rating

E-rated fuses operate as follows:

Over 100E - must melt in 600 seconds (10 mins.)

on 220 to 264% of E (ampere) rating.

Example - A 750E fuse must melt in 600 seconds with an applied current of 1650 to 1980 amperes.

General Purpose Current-Limiting Fuse

A general purpose current-limiting power fuse is one that is capable of interrupting all currents from its rated interrupting rating down to the current that causes melting of the fusible element in one hour.

APPLICATIONS:

- Protection for 5.5kV transformers or distribution systems

5kV BOLT-IN FUSES

Amp-trap® Bolt-in Series E-rated fuses are single, double or triple barrel (3" diam.) with end mounts designed for bolting directly to equipment bus or terminal pads. They are UL listed and are for use indoors (or outdoors in a weatherproof enclosure). The unique time-current characteristic of Ferraz Shawmut E-rated fuses allows them to be closely sized to transformer full load rated current, as recommended by IEEE guidelines, without being affected by normal magnetizing inrush current. Bolt-in fuses are typically sized at transformer rated current of 133%, thereby providing superior overall protection.

Features/Benefits

- **UL Listed** for compatibility with UL listed equipment
- **Bolt-in mounting** for direct connection to bus or terminals
- **Current Limiting** for superior equipment protection
- **Blown-fuse indicator** gives positive identification of open fuse
- **Non-venting** for silent operation
- **Metal Embossed Catalog Number** and manufacturing date for lasting identification

Ratings

- **A055B**
AC: 10E TO 900E
5500V max, 63kA I.R.
Sym.

Approvals

- UL Listed to JEEG,
"Fuses Over 600 Volts"
UL File # E143362
